“Ports and times subject to change.”

MEDICAL DIRECTOR: Mark Murphy, MD, MSN/Education: Austin, Texas and Northwest Seminars; Places: Washington

TARGET AUDIENCE: This course is designed for physicians, physician assistants, nurse practitioners, registered nurses, and all other medical care providers who must maintain state-of-the-art knowledge of the specialty or are impacted by it.

PROGRAM PURPOSE: The practitioner of emergency medicine must possess evidence-based scientific background for competent clinical practice; maintain state-of-the-art knowledge of the specialty and all additional related disciplines; maintain an up-to-date comprehensive knowledge of the field and skills for the selection and use of complex equipment, pharmacological agents, and procedures manage self and colleagues in function toward common goals; providing care in the in- and out-patient setting; recognizing and treating medical and surgical conditions and complications; and equitably health care delivery and support of other personnel, departments, institutions, and organizations dependent upon professional expertise.

Presentations are designed to facilitate the acquisition of cognitive and technical skills as defined through evidence-based data translated to best practice standards by the pertinent governmental and professional organizations including the American College of Emergency Physicians, American College of Surgeons and the Emergency Nurses Association and abilities in one or more of the disciplines vital to the practicing physician.

OBJECTIVES: By the conclusion of this activity, the participant will be able to:

1. Apply the pertinent physical and behavioral sciences as they impact and are affected for the planning, delivery, and monitoring of care in the professional environment.

2. Explain the selection, dosing considerations with methods of administration, safe use, contraindications, and precautions of drugs based on their chemical and pharmacological properties.

3. Outline comprehensive patient management plans for the special patient population.

4. Apply the principles of safety and asepsis in the performance of all aspects of patient care regardless of the clinical environment in which the practice resides.

5. Incorporate the published principles of pertinent, recognized external organizations, institutions, and professional groups defining medical, legal, philosophic ethical, and health care management standards.

6. The activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The A. Webb Roberts Center for Continuing Medical Education of Baylor Scott & White Health and Northwest Seminars. The A. Webb Roberts Center for Continuing Medical Education of Baylor Scott & White Health is accredited by the ACCME to provide continuing medical education for physicians. The A. Webb Roberts Center for Continuing Medical Education of Baylor Scott & White Health designates this live activity for a maximum of 22 AMA PRA Category I Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Board of Anesthesiology: CME credit will be sent directly to The American Board of Anesthesiology to fulfill the Part 2 requirement for Maintenance of Certification in Anesthesiology (MOC®).

Nurse Practitioner: The American Academy of Nurse Practitioners Certification Program (AANPCP) and the American Nurses Credentialing Center (ACCNC) accept CME credits applied toward recertification.

Physician Assistants: The American Academy of Physician Assistants (AAPA) will accept credits toward certification, as well as re-certification, up to 24 CME credits per year.

Osteopathic Physicians: This program is eligible for Category 2 credit with the American Osteopathic Association (AOA).

Continuing education for the medical professional
